SENATOR STANFORD'S ARION

Something About the Wonderful Colt—Hawkins Won Last Night's Fight in a Clever Manner.

All the horse world is marveling at the performance of Senator Stanford's great 2-year-old colt, Arion, which last Tuesday chopped the record for his age down to 2:10 3/4 at Palo Alto. And there is cause for wonderment in that performance.

Arion is by Electioneer, dam Manette, by Nutwood, second dam Addie, by Hambletonian Chief. His performance is unquestionably the most sensational in the annals of the trotting turf. While only a "baby trotter," he has acquired a record that is only two seconds and a half behind the best ever made, 2:08 3/4, recently achieved by Sunol, and only two seconds behind the 2:08 3/4 of the great Maud S. If succeeding years increase his speed and stamina he will come near the two minute mark, which some enthusiastic students of trotting have named as the limit of speed at that gait. The possibilities of his future are certainly inspiring. That his name will be a household word wherever the trotter is known is assured, and his future movements will be eagerly awaited by every admirer of the utility horse.

There are yet nearly two months in which Arion may figure as a 2-year-old, and it is not unlikely that Marvin will give him other trials and that he may equal, if not surpass, the mark of Sunol before becoming a 3-year-old. Perhaps the year 1892 will begin with the precocious trotter the standard bearer in the matter of records.

Attracting attention a few weeks ago by making a race record of 2:21, Arion progressed by rapid stages in contests with the scythe bearer. First he went in 2:53 1/2. Then, after a brief rest, he knocked off another second and a half. With 2:14 1/2 to go against Tuesday, a recollection of that record was highly probable. Still, he not only reduced, but placed it in obscurity by beating it three seconds and a half. An improvement of over 10 seconds in a month would be considered wonderful if accomplished by an aged horse. When accomplished by a "baby trotter," it is simply marvelous.

While he is an ideal trotter, he is not Senator Stanford's ideal. The thoroughbred strain, which the senator so strongly favors, has only a remote existence in the great colt's veins. Arion is almost strictly trotting blood. His sire was by Ryeddy's Hambletonian, out of Green Mountain Maid. His dam was by Nutwood, out of a daughter of Hambletonian Chief, he by Ryeddy's Hambletonian. Nutwood was by Alexander's Belmont, out of Miss Russell, dam of Maud S. Belmont was by Alexander's Abdallah, a son of the old Hero of Chester.

In Miss Russell, by Pilot, Jr., will be found the chief support of advocates of thoroughbred in Arion's case. His performance will no doubt renew the already profuse discussion between breeders as to the value of thoroughbred blood in the trotter, and his blood lines will be subjected to careful analysis to establish elements favorable to each side. Until further investigations he must delight advocates of strictly trotting blood and afford little comfort for those who prefer a strong infusion of thoroughbred blood.

Marcus Daly had reason to be interested in the performance of Arion. He is the owner of a full sister of the phenomenal baby trotter and a full sister of his dam. The bay mare Hattie D., foaled 1885, and owned by Mr. Daly, is by Electioneer, out of Manette. The bay mare Manon, record 2:21, by Nutwood, out of Addie, is a full sister of Manette and also a full sister of the great stallion Woodnut, 2:10 3/4. These mares are at Riverside. Their value has greatly increased during the past month. The value of their blood to the breeding interests of Montana cannot be overestimated. It is probable Mr. Daly would not part with them even at fabulous figures. It is also probable that Senator Stanford would not part with Arion at any figure.

Hawkins Wins It

SAN FRANCISCO, Nov. 11.—Dan Hawkins, champion bantam weight pugilist of the Pacific coast, knocked out Billy Donegan, also of San Francisco, in eight rounds tonight at the Occidental club. The fight was a clever one and the knock out blow was a clean left on the point of the chin.

Burned in a Wreck

ST. PETERSBURG, Nov. 11.—A dispatch from Melitopol in Crimea says a freight train was passing through town when from an unknown cause two cars were thrown from the track. They dragged the others after them and the whole train was totally wrecked. A number of train hands were caught in the debris. The wrecked cars caught fire, the flames spreading rapidly with such rapidity it was impossible to extricate the imprisoned men. The railroad station was also destroyed by fire.

FOR A MEETING.

Governor Toole Issues a Call for an Irrigation Convention.

HELENA, Nov. 11.—Governor Toole has issued the following proclamation for a state irrigating convention to meet at Helena Jan. 7, 1892:

WHEREAS, The irrigation congress which lately met at Salt Lake City, Utah, adopted the following platform:

Resolved, That this congress is in favor of granting in trust upon such conditions as may serve the public interest to the states and territories needful of irrigation, all lands now apart of the public domains within such states and territories, excepting mineral lands, for the purpose of developing irrigations to render the lands now arid fertile and capable of supporting a population.

Resolved, That it is the sense of the convention that the committee selected to propose and present to congress the memorial of this convention respecting public lands should ask as a preliminary to the consideration of all the lands in the territories in accordance with the resolutions of the convention, a liberal grant to said territories and the states to be formed therefrom, of the public lands to be devoted to public school purposes.

WHEREAS, Large areas of arid lands and semi-arid lands, situated upon the great plains in the Dakotas, Western Nebraska, Kansas and Oklahoma were settled upon in good faith by homesteaders, under the supposition that they were entering arid lands; and

WHEREAS, The settlers upon such lands have expended much time and money upon the same and paid into the United States treasury therefor only to discover that irrigation to a greater or lesser extent is necessary in making homes for themselves thereon; therefore be it

Resolved, That the representatives of all the states and territories directly interested in irrigation do hereby pledge their unwavering support to the just demands of such settlers, that the general government shall donate at least a portion of the funds received from the sale of such lands toward the procurement of the means necessary for their irrigation.

Resolved, That this congress heartily endorse the first and main work of the agricultural department of the national government in the collection and dissemination of information, especially its admirable progress reports covering the whole field of irrigation development, and that it favors large appropriations for this work hereafter, and

WHEREAS, It is deemed advisable to obtain a direct expression of the people of this state upon the resolutions aforesaid, now, therefore, for that purpose and to that end, a convention is hereby called to meet at the city of Helena on Thursday, Jan. 7, 1892, at 12 o'clock.

The appointment of delegates has been made as follows:

Beaverhead..... (Lew's and Clark)..... 25
Choteau..... (to Weigher)..... 8

The board of county commissioners of several counties are earnestly requested to appoint delegates at their December meeting according to the foregoing apportionment, based upon two delegates to each three hundred voters.

JOS. R. K. TOOLE,
Governor of Montana.

THE BANNER STILL WAVES.

Anarchists in Chicago Compelled to Hang Out the American Flag.

CHICAGO, Nov. 11.—The stars and stripes waved aloft to-night after a scene of excitement unequalled since the Haymarket riot. Over a thousand anarchists and sympathizers gathered at the West Twenty-eighth street Turner hall to-night to commemorate the anniversary of the execution of anarchists Spies and Parsons. Speeches were extremely strong, and red emblems covered every thing. The climax came during the incendiary utterances of Henry Weisman, editor of a New York German trades paper. Inspector of Police Hubbard accompanied by Lieutenant Gibbons and a guard of officers in citizen's clothes approached the stage. Hubbard ordered the American flag placed above the flaming red banners which were conspicuous everywhere. Instantly there was a profound sensation in the motley audience and the police were hissed from all parts of the hall. Mrs. Lucy Parsons shrieked out, "Hang the murderers of my husband." In a second pandemonium reigned. Hundreds of excited men pushed forward, cursing the officers and seemingly only wanting a nod from the leaders to precipitate a bloody fight. Several officers, Hubbard included, unflinchingly ordered suspension of the meeting until his commands were obeyed. Through the din the half hundred police could be seen with their hands on clubs and revolvers preparing for a fight which seemed inevitable. It was fully 10 minutes before order was restored. The American flag in the meanwhile had been reluctantly hoisted to a place over the stage. The proceedings were only accomplished when the officers were found ready for action and cooler heads among the audience had time to exercise some influence. The meeting had been taken entirely by surprise, else a more tragic result might have followed.

BILLY MEREDITH GETS THERE.

The Or: Defeated Finally Finds a Place in Canadian Politics.

OTTAWA, Ont., Nov. 11.—The reconstructed Dominion cabinet will be as follows: Premier and president of the council, J. J. Abbott; minister of finance, George E. Foster; minister of public works, J. E. Angers; minister of justice, Sir John Thompson; minister of customs, J. J. Curran; minister of inland revenue, John Costigan; postmaster general, J. J. Hoggart; minister of militia and defence, Sir Adolph Caron; minister of the interior, J. A. Chapeau; minister of railways, McKenna-Bowell; solicitor general, William E. Meredith; minister of agriculture, John Carling; secretary of state, J. A. Oumet.

It is again rumored that the dissolution of parliament will follow the reconstruction, but this is hardly likely.

FIRE AT SPOKANE.

Carriage Depository With Contents Destroyed.

SPOKANE, Nov. 11.—A large frame building on Boone street, owned by W. A. Abernathy and occupied by L. L. Long & Co., dealers in vehicles, as a warehouse, burned to-night with all its contents, which it is claimed consisted of 65 new buggies and carriages, entailing a loss of between \$12,000 and \$15,000; fully insured. Owing to the isolated location of the building, nearly a mile from the nearest fire station and several blocks distant from water, the fire department was unable to do much toward saving anything.

A VOYAGE OF DISCOVERY.

Sights Viewed by a Surveying Party in Lower California.

YUMA, Ariz., Nov. 11.—A party which has been engaged the past two months surveying lands in Lower California, returned yesterday. The party surveyed Hardy's Colorado from its source to present mouth and made several interesting discoveries. They report the volcanic region showed the severity of the recent earthquake troubles. Fifteen of the most active volcanoes, in what is known as the west group, are almost entirely obliterated. The east group of 500 volcanoes at Lake Jullily have daily eruption, and to the south group has been added at least one hundred. The volcano, Chief, is in active operation. Its crater opening is 10 by 40 feet in extent. Lake Jullily, formerly five miles long by half a mile wide, is now 25 miles long by 12 to 25 miles in width and with an average depth of 12 to 25 feet. Its waters, formerly salt, are now fresh, owing to overflow of the Colorado. On the homeward journey they discovered a new country, parallel to the Colorado leading into an unexplored country between the Colorado and the Mesa divide, which separates the Carter river from the new river. The newly discovered waterway was found to be an inlet of the Colorado, entering 15 miles below Yuma.

DIVIDED AGAINST ITSELF.

The National League All Turn Up Over Chicago's Kick.

NEW YORK, Nov. 11.—The National League convention to-day found the League divided against itself for the first time in its history. Chicago, New York and Boston being at loggerheads over the championship. The board of directors had a lengthy talk with President Hart of the Chicago club, this afternoon, after which the League went into session. The charges made by the Chicago club were considered and the evidence gained during the recent investigation presented as explaining and meeting Chicago's charges, and a report was made to the League which satisfied the findings for New York.

Nick Young was reelected president. The League to-night formally awarded the pennant to Boston.

Two Hobos Who Liked Chinese Grub But Despised the Chinamen.

BUTTE, Nov. 11.—Last night, Jule Ehrich was discharged from the city jail, where he had served a sentence for disturbing the peace. To-night he and another rounder entered a Chinese restaurant in West Park street and ate supper for which they refused to pay. When the Chinaman expostulated with them they assaulted him and tried to throw him through the window of his own waffle factory. Officer Scott appeared on the scene at this juncture and arrested the two fellows and locked them up at the station.

THE BOYS' DAY.

Eight Score of 'Em Take in The "Turkish Bath."

BUTTE, Nov. 11.—A rare event in town to-day which attracted general attention was the parade by the newboys and other youngsters of the city under the auspices of the Inter Mountain and their visit to the "Turkish Bath" at the opera house. One hundred and sixty-eight lads were in line, and even a larger number attended the show. The people in Helena who say that children cannot be raised in Butte would have changed their minds if they could have seen the lively multitude of youngsters struggling to get into the show first.

Rushed to His Death.

WALKERVILLE, Nov. 11.—A horse belonging to James Berryman was killed this morning. The animal was hitched to an express wagon standing in front of William Sarah's house. While Mr. Berryman was up stairs after a trunk which he was going to take to the depot, the horse became frightened and dashed down Main street. He continued his flight but a short distance, as horse, wagon and all were piled in a hole some six feet deep across the street from Driscoll's store. When the animal fell he struck his head against a large stone, which caused his immediate death.

A Cipher Dispatch.

CHICAGO, Nov. 11.—A special from Washington says a long cipher dispatch was received by the state department yesterday from an American minister at Rio Janeiro, but the department refused to give any information. Sir Julian Pauncefote has a dispatch from the English admiral on the British station saying the country is in open revolution.

Strikers Victorious.

ST. LOUIS, Nov. 11.—The strike began by the engineers and firemen on the belt line to-day was short lived. An agreement was reached this evening by which the recently dismissed employees will be reinstated and the non-union men dismissed. The outcome is a victory for the strikers.

NOT THE CHILIAN CUSTOM.

Why American Officers Were Not Present at the Trial of the Miners.

NEW YORK, Nov. 11.—A Herald's Santiago special contains an interview with Chilean Minister of Foreign Affairs Matta, in which the latter conveys the impression that the representatives of the United States in Chile had seemed to think they could in every way dictate to Chile what she should and should not do. He denied the assertions that the present government was hostile to the United States, and said that upon what has transpired since the war begun the people of both countries would be called to act as judges. As to the refusal to permit an officer of the Baltimore to be present at the judicial investigation, it was simply because it was contrary to the rules of Chilean procedure. The judge of crimes controls these secret trials and it is left to his discretion whether or not to allow the presence of an outsider. All this information has been transmitted to Minister Egner.
